Address: 175 East Main Street, Chillicothe
Date of Inspection: June 8, 2010
Reason for Inspection: Standard Inspection / Complaint
Sanitarian Performing Inspection: Kelly Dennis, R.S.

Violation(s) / Comment(s) (Chapter 3717-1 OAC violations checked)

A complaint was reported to our office that a customer observed employee icing donuts or cakes without wearing gloves. Standard inspection was conducted. Observed employees wearing gloves when touching ready-to-eat food. Employees ice donuts and cakes using utensils to prevent bare-hand contact with food. Complaint not valid at time of inspection.

Cold held food below 41°F and in proper temperature. Hot water adequate. Sanitizer and test strips available. Food prep surfaces kept clean at time of inspection. The following violations were noted during the inspection:

04.4 Equipment, Utensils, and Linens: Maintenance and Operation

(P) Warewashing equipment - determining chemical sanitizer concentration.

Sanitizer for three compartment sink in a slightly high concentration of 500ppm quaternary ammonia. Use quat sanitizer at 200ppm as recommended by manufacturer. Concentration of the sanitizing solution shall be accurately determined by using a test kit or other device.

06.4 Physical Facilities: Maintenance and Operation

(A) Repairing.

Ceiling above dry storage room chipping paint and plaster. Floor tile around toilet in restroom in poor repair. Storage cabinet by hobart mixer may need repainted or resurfaced to provide a smooth and cleanable surface. The physical facilities shall be maintained in good repair.

06.4 Physical Facilities: Maintenance and Operation

(B) Cleaning - frequency and restrictions.

Hard to reach areas of floor, walls, shelves below prep table, and dry storage room dirty with residue and debris. Clean hard to reach areas routinely to prevent such accumulation. The physical facilities shall be cleaned as often as necessary to keep them clean.
