Food Service Inspection Summary

Name of Establishment: Tumbleweed
Address: 1150 North Bridge Street, Chillicothe
Date of Inspection: February 11, 2010
Reason for Inspection: Standard Inspection
Sanitarian Performing Inspection: Kelly Dennis, R.S.

Violation(s) / Comment(s) (Chapter 3717-1 OAC violations checked)

Cold food sampled appeared in proper temperature of 41°F or below. Hot food appeared to be cooked to proper temperature and held above 135°F. Hot water adequate. Sanitizer for dish machine, wiping cloths, and bar sink observed in proper concentration. Food prep areas kept clean at time of inspection. Operation has made a good effort at correcting and addressing violations noted on previous inspection.

03.2 Food: Protection from Contamination after Receiving

(C) Packaged and unpackaged food - preventing contamination by separation, packaging, and segregation.

Lid not placed on salad prep cooler at time of inspection. Keep lid on prep cooler so food can be covered during pauses in preparation and to help unit keep food in proper temperature. Food shall be protected from contamination by covering.

04.1 Equipment, Utensils, and Linens: Design and Construction

(A) Equipment and utensils - durability and strength.

Observed a fryer basket with many damaged wires and brackets. Discard and replace to help prevent possible contamination of food from broken or damaged wire. Equipment and utensils shall be designed and constructed to be durable and to retain their characteristic qualities under normal use conditions.

06.4 Physical Facilities: Maintenance and Operation

(B) Cleaning - frequency and restrictions.

Walls and shelves around dish machine observed dirty with debris. Floor in freezer dirty with debris. Clean hard to reach areas routinely to prevent such accumulation.
